Welcome to the 43rd annual Gollaher Ranch yearling bull sale. Thank you for looking over our sale offering.

We are offering a set of bulls that we feel were bred to provide calving ease, without compromising their performance for growth, feed efficiency and carcass value. These are all traits sought by our progressive cattle producers and buyers.

Over 60% of the bulls are suitable for use on heifers. We have tried to emphasize length of body, depth, muscling, and temperament in selecting bulls for the sale. This offering is a good growthy set of calves who will mature into a great set of cow bulls, adding to their value and a nice return on your original investment.

All data in the catalog is as of 03-15-2022. Final weights and scrotal measurements will be available sale day. If you have any questions about our operation, the bulls, the sale or our cow herd please contact us.

Thank you for looking over our sale offering and we look forward to seeing you on Monday April 4th. Lunch is at noon and the sale starts at 1 pm.

## AMERICAN ANGUS ASSOCIATION SELECTION TOOLS

### Explanation of EPDs used in our 2021 sale catalog

**Expected Progeny Difference (EPD)**, is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus.

**Calving Ease Direct (CED)**, is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire's calves will be born when he is bred to first-calf heifers.

**Birth Weight (BW)**, expressed in pounds, is a predictor of a sire's ability to transmit birth weight to his progeny compared to that of other sires.

**Weaning Weight (WW)**, expressed in pounds, is a predictor of a sire's ability to transmit weaning growth to his progeny compared to that of other sires.

**Yearling Weight (YW)**, expressed in pounds, is a predictor of a sire's ability to transmit yearling growth to his progeny compared to that of other sires.

**Scrotal Circumference (SC)**, expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

#### MATERNAL

**Maternal Milk (Milk)**, is a predictor of a sire's genetic merit for milk and mothering ability in his daughters compared to daughters of other sires. In other words, it is that part of a calf's weaning weight attributed to milk and mothering ability.

#### CARCASS

**Marbling (Marb)**, is expressed as a fraction of the difference in USDA marbling score of a sire's progeny compared to progeny of other sires.

**Ribeye Area (RE)**, expressed in square inches, is a predictor of the difference in ribeye area of a sire's progeny compared to progeny of other sires.

#### \$VALUE INDEXES

\$Value Indexes, reported in dollars per head, are multi-trait economic selection indexes where a higher values suggest more profit when comparing two individuals.

**Weaned Calf Value (\$W)**, expressed in dollars per head, provides the expected difference in future progeny preweaning performance from birth to weaning.

**Feedlot Value (\$F)**, expressed in dollars per head, is the expected average difference in future progeny performance for postweaning feedlot merit (growth and feed efficiency) compared to progeny of other sires assuming producers retain ownership of cattle and sell on a carcass weight basis.

**Grid Value (\$G)**, expressed in dollars per carcass, is the expected average difference in future progeny performance for carcass grid merit, including quality and yield grade attributes, compared to progeny of other sires.

**Beef Value (\$B)**, expressed in dollars per carcass, represents the expected average differences in the progeny postweaning performance and carcass value compared to progeny of other sires. This index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot and sell on a carcass merit grid.

# *Thank you...*

Thank you to all who make our sale possible. From you the buyers, to the trucker, the lunch help and cleaning crew we appreciate you all. For the professionals we hire to work with us on herd health, feeding, veterinary needs, and sale preparation we want to thank you.

Without the help of our crew, family, friends and neighbors during, calving, branding, weighing and shipping we would never be able to pull off these sales.

To the friends who give their time the weekend before the sale to help Ted clean, retag, and feed the bulls before the sale and then work sale day we owe you!

To our sale day crew on the auction block and the ring men John Goggins and Kurt Kangas we appreciate your efforts in running a smooth sale.

To our auctioneer, Roger for always doing a great job.

To those of you who are joining us on sale day our heartfelt thanks for you support.
